

## FOREWORD

This parts catalog contains service parts information for the “MITSUBISHI PAJERO”.

The vehicle models covered by this catalog are listed under “Applicable Vehicle Models” given later.

To make effective use of this catalog, please read and become thoroughly acquainted with the “General Information”.

(The information complied herein is based on available data as of December 10, 2004.)

The parts numbers are subject to change without prior notice.

### MITSUBISHI GENUINE PARTS

Use “MITSUBISHI GENUINE PARTS” exclusively for servicing your Mitsubishi vehicle.

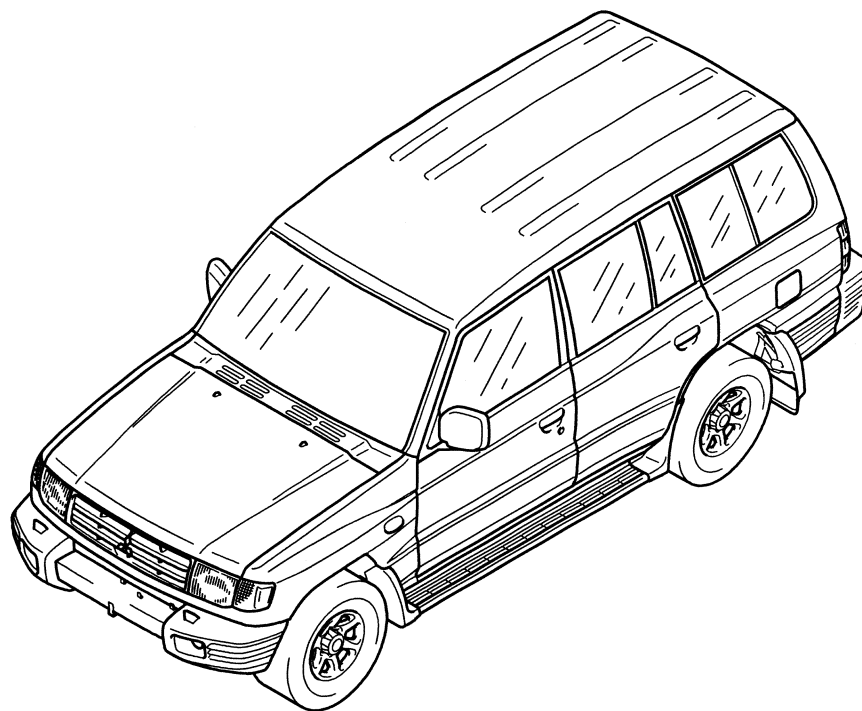

“MITSUBISHI GENUINE PARTS” are superior and reliable because they have been produced under the most stringent quality-control system, and have met the standard after strict inspection.

Imitation parts are not recommended due to inferior materials and manufacturing methods that do not conform to the standards established for Mitsubishi genuine parts.

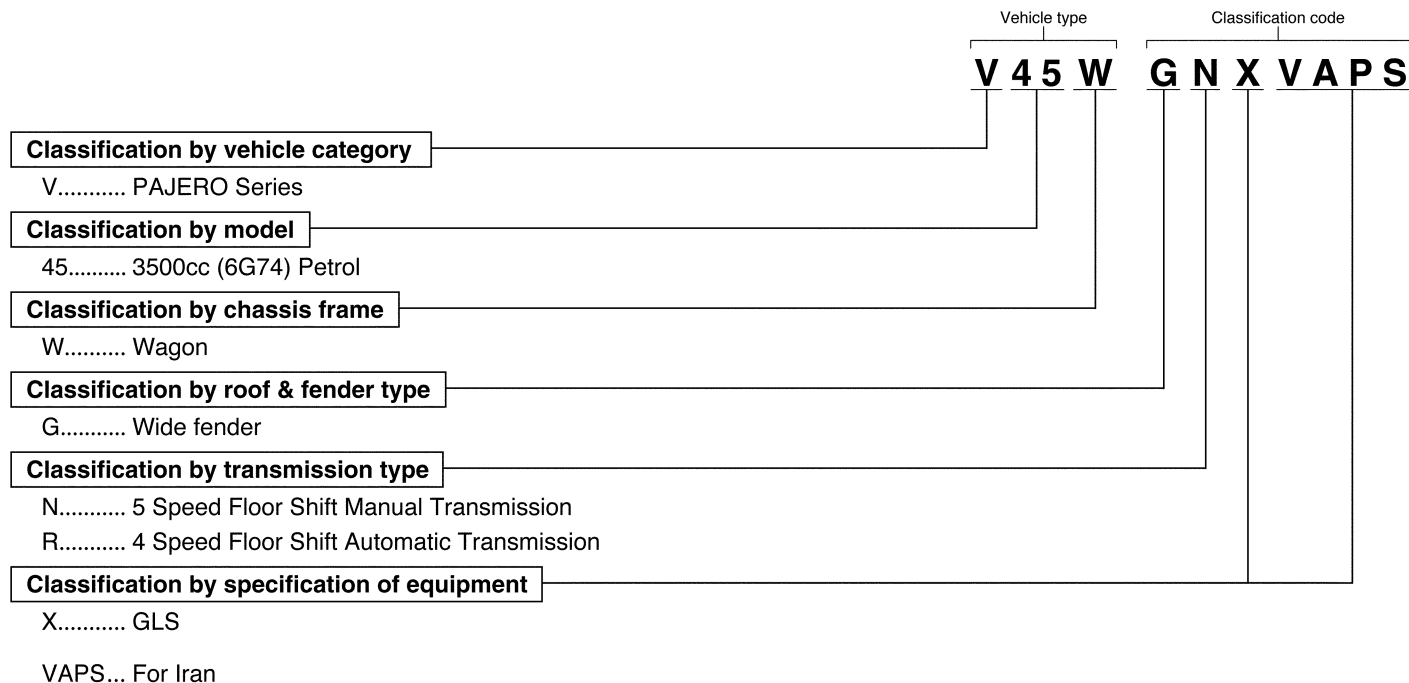

A large assortment of “MITSUBISHI GENUINE PARTS” is always available at any of our authorized dealers, so purchase from your nearest dealer by specifying “MITSUBISHI GENUINE PARTS”.

Special Tools are not listed in this catalog. For information on special tools, please refer to the Workshop Manual or Special Tools Manual. (Special tools are supplied through normal service parts supply route.)

3K6FJ01

RO9-FULL AUTO A/C

**① Group number**

This field gives the number of the group (Main-Sub).

**② Subgroup name**

This field gives the name of the subgroup.

**③ Illustration characteristic**

This field gives the characteristics of illustrations.

Example:

E13A, E15A: ALL

E17A: A/T

E13A, E15A, E17A: AIR CLEANER BRACKET ETC

**④ Parts name code (key number)**

This field shows the key number used to associate an illustrated parts with the parts name in the parts number list.

(For the parts name code composition and meanings, refer to the related materials on parts name codes.)

**⑤ Parts name**

This field gives the parts name (including any supplementary name).

**⑥ Production period**

This field gives when production of the vehicle using the parts started and ended.

Example: 8710·2 - 8807·1

Manufactured from the middle of October,  
1987 to the beginning of July, 1988

(1: beginning, 2: middle, 3: end)

**⑦ Model**

This field gives the model marked on the nameplate.

**⑧ Application**

When a vehicle can be more easily identified by its general characteristics, this field gives those characteristics instead of classification code.

Example: ALL

W/O SUNROOF

SUNROOF

SNHTL SRHTL

**⑨ Parts number**

This field gives the numbers of parts used in the vehicle.  
The substitute parts numbers are enclosed in (        ).

#### ⑩ Substitution

Changed parts may be compatible or not. If a new parts can replace an old one, it is called a substitute part and is classified as follows:

O : Both new and old parts can be used.

Y : The new part can replace the old one, but the old part can only be used for the old vehicle model.

# : The new and old parts must be replaced with other related parts simultaneously.

#### ⑪ Quantity

This field gives the numbers of parts to be used.

#### ⑫ Remarks

1. This section gives the following additional information because the reader may not be able to identify the parts number from the production period, model, and application alone.

Example:

- Shape ..... FLANGE
- Color ..... L-GRAY
- Specification ..... 50A
- Material ..... RUBBER
- Size ..... 8×40
- Interior code ..... INT : 0.2H
- Exterior code ..... EXT : W01
- Option code ..... OP : R09

2. If several new and old parts were replaced as reported by the service parts news, "Service parts news No." is given.

#### ⑬ Option Code

This field explains the meanings of options given in the remarks field.

Example: R09: FULL AUTO A/C

D42: AUTO SPEED CONTROL

#### ⑭ Illustration control number

This field shows the illustration control number for the manufacturer.

## Engine Assembly

The Engine Assembly is a unit service part that is actually same as the unit engine mass-produced for installation on the vehicles currently in production. Therefore, it does not include those parts which are not directly assembled to the engine (such as transmission, starting motor and high tension cable) and air cleaner and oil pressure switch.

Service engine assembly is available only for those models which are currently in production. For the models marked \* in the Parts No. column which are no longer in production, please order a short engine assembly.

## Ensemble moteur

L'ensemble moteur est un élément de rechange unitaire en tous points semblable aux moteurs fabriqués en série pour équiper les véhicules sortant actuellement des chaînes de production. De ce fait, un tel ensemble ne comprend pas les pièces directement montées sur le moteur (notamment boîte de vitesses, démarreur et câbles de bougie), ni le filtre à air et le manostat d'huile.

L'ensemble moteur de rechange n'est disponible que pour les modèles actuellement fabriqués. En ce qui concerne les modèles portant un \* dans la colonne "Part No." (n° de pièce), et qui ne sont plus en fabrication, prière de commander un ensemble de moteur nu.

## Conjunto del motor

El conjunto del motor es una pieza de unidad de servicio que es igual a la unidad de motor producida en masa para instalarse en los vehículos actualmente en producción. Por lo tanto, no se incluyen las piezas que no se ensamblan directamente en el motor (como la transmisión, motor de arranque y cable de alta tensión) y filtro de aire, e interruptor de presión de aceite.

El servicio de conjunto del motor está disponible sólo para los modelos actualmente en producción. En el caso de modelos marcados con \* en la columna "Part No." (número de pieza), que ya no se producen, rogamos pedir conjunto corto de motor.

## مجموعة المحرك

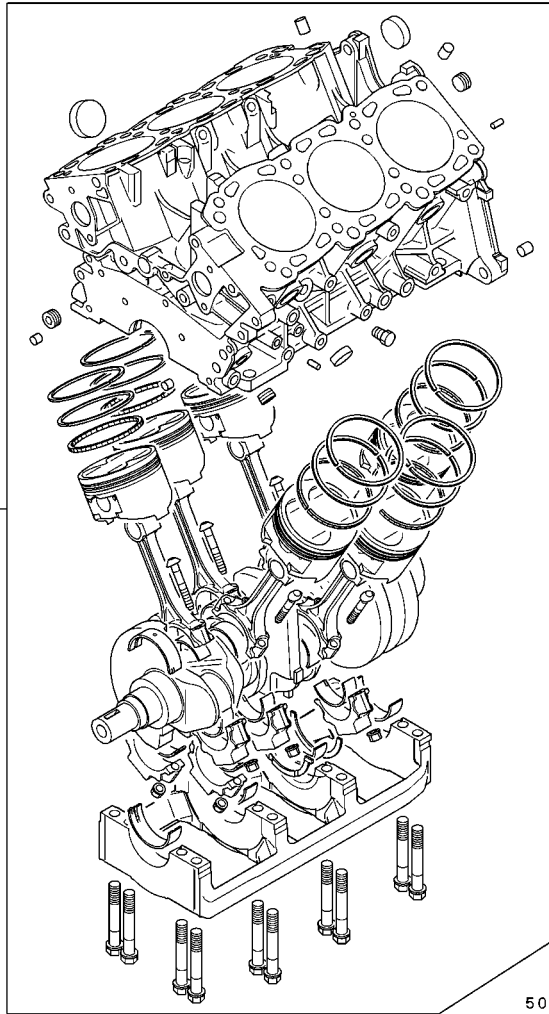

مجموعة المحرك هي قطعة غيار مستقلة وهي مثل وحدة المحرك العادية التي يتم تركيبها في جميع السيارات التي يجري إنتاجها حالياً. وهي على هذا لا تشمل تلك الأجزاء غير الأساسية في المحرك ذاته (مثل جهاز نقل الحركة ويادىء الحركة وسلك الجهد العالي). كما لا تشمل منظم الهواء ومفتاح ضغط الزيت.

قطعة غيار مجموعة المحرك متوفرة فقط بالنسبة للموديلات التي يجري إنتاجها حالياً. بالنسبة للموديلات التي عليها علامة \* في عمود رقم قطعة الغيار، وهي الموديلات التي توقف إنتاجها، نرجو طلب مجموعة المحرك القصير.
