

Headlight Cleaner System

- A pop-up type headlight cleaner system is now available as an option for European models. When not in operation, it is stowed in the bumper cover for enhanced appearance.
- The headlight cleaner sprays windshield washer fluid onto the lens of the headlights.

Power Window System

- A power window system is now standard equipment for all models.
- All models except those for general countries now have all door one-touch auto up-and-down and jam protection functions.
