

xA

OUTLINE OF NEW FEATURES

The following changes are made for the new xA.

1. Brake

- On the specially equipped model for the G.C.C. countries, the brake control system [ABS with EBD (Electronic Brake force Distribution), Brake Assist, TRC (Traction Control) and VSC (Vehicle Stability Control) system] is provided as optional equipment.
- The brake control system with VSC is provided with a master cylinder of a different size.

Master Cylinder	With VSC	Without VSC
Type	Tandem	←
Diameter mm (in.)	22.22 (0.87)	20.64 (0.81)

2. Multiplex Communication System

The CAN (Controller Area Network) communication has been adopted in the brake control system of the specially equipped model for the G.C.C. countries.

3. Sliding Roof

A sliding roof has been newly adopted on the specially equipped model for the G.C.C. countries.
